

Project Blue Bag Project No.3

Date: 30th July – 12th August, 2026

Location: Rato Bangala School, Lalitpur

Specified Committee: Community Service

Area of Focus: Environment and Community Development

Introduction:

Project Blue Bag was a collaborative initiative organized by the Interact Club of Rato Bangala School in collaboration with Chakraview. Over the course of two weeks, students from Grades 7 to 10 were encouraged to donate their unused jeans. The collected denim was then handed over to Chakraview, an organization that converts old denim clothing into useful items such as pencil pouches and school bags for children in Karnali who have limited access to these materials. Through this initiative, the project promoted both responsible reuse and community support, showing how items that are no longer needed can be transformed into something meaningful for others.

Project Summary:

The Interact Club of Rato Bangala School conducted the collection drive for approximately two weeks, during which students from Grades 7 to 10 contributed their old jeans. The collected denim was gathered and donated to Chakraview. The project allowed students to take part in a simple but meaningful form of community service while also encouraging them to think about the value of reusing materials instead of discarding them. The collaboration with Chakraview made it possible for the donated jeans to serve a purpose beyond their original use and ultimately contribute to supporting children who lack access to basic school supplies. Overall, Project Blue Bag was a meaningful initiative that combined sustainability, student participation, and social responsibility.
