About 'Club Orientation'

Introduction:

The Club Orientation was conducted to help members gain a better understanding of Interact, its history, values, and significance. The club orientation falls under the Rotary theme of the August month:

Membership and New Club Development. The session highlighted the importance of leadership, service, fellowship, and personal growth while also introducing members to the club's functioning and their roles as Interactors. Through engaging discussions and shared insights, members were encouraged to actively contribute, connect with others, and create a positive impact through their involvement in the club.

Summary:

The orientation program was conducted by the Immediate Past President, Rtr. Sarthak Singh Subedi, with the aim of familiarizing members with the Rotary family and the wider Interact movement. The session covered the background and history of Rotary, Rotaract, Interact, and the Interact District, along with the values and purpose behind each. Members were also briefed on the different club positions, their respective responsibilities, and what is expected from

them as active Interactors. The session also highlighted the various opportunities available beyond the club, including district-level events such as Rota Quiz and other Interact initiatives. These platforms were introduced as opportunities for members to explore their interests, develop new skills, build connections, and take part in activities overlapping with their interest. With discussions, practical examples, and insights from experience, members gained a clearer image of how the club operates, how they can contribute and how they can benefit from it.

Overall, the orientation gave members a strong foundation to begin their Interact journey with greater confidence, involvement, and understanding.
