ABOUT 'Mega Tree Plantation'

Introduction

On August 2nd, 2026, the Interact Club of New Horizon participated in a large-scale environmental initiative titled "Mega Tree Plantation" at Hari Har Park in Tamnagar. Organized in collaboration with the Rotary Club of Butwal and several neighboring Interact clubs, the event was aimed at contributing to environmental conservation while teaching students and members valuable lessons about ecological responsibility and community service.

Project Summary

The event took place on a school holiday, bringing together enthusiastic members who traveled directly from the school to Hari Har Park. The day began with everyone enjoying a shared lunch, which fostered fellowship and strong bonding among the members of the participating clubs. Following lunch, members of ICNH teamed up with Interactors from Deep, Oxford, Pamir, Butwal, and Horizon G.B.S., as well as Rotarians, to plant numerous tree saplings across the park grounds.

The hands-on collaborative effort was highly engaging and enjoyable for everyone involved. Ultimately, the event successfully contributed to a greener environment while providing a profoundly valuable and memorable experience that the participating members will long cherish.
