ABOUT 'SPARK AND GLOW: ACADEMIC EXCELLENCE'

Introduction

On August 29th, 2026, the Interact Club of New Horizon virtually hosted an insightful academic mentorship session titled "Spark and Glow: Academic Excellence" via Google Meet. Preparing for board examinations like the SEE requires not only rigorous studying, but also effective strategies, mental discipline, and consistent guidance. To inspire and equip current students with real-world advice, the club invited two distinguished alumni of New Horizon who recently achieved top grades in the SEE 2082 examinations. Designed to bridge the gap between past achievers and current aspirants, this virtual interaction aimed to ignite academic ambition and foster practical learning.

Project Summary

The event formally commenced with a warm welcome and an introduction of the Master of Ceremonies (MC). The session featured guest speakers Itr. Prekshya Gyawali (Zonal Secretary of Zone 4) and Ms. Apekshya Gautam (GPA 4.0 scorer in SEE 2082), who shared their personal academic journeys, study routines, exam preparation techniques, and strategies for overcoming challenges.

A key highlight of the program was the interactive Q&A segment, where students actively engaged with the speakers. During this discussion, a critical question was raised regarding how to maintain study consistency while balancing personal passions and long-term goals—a topic the speakers addressed with practical wisdom. The event concluded with an empowering closing speech emphasizing that academic excellence begins with a single spark of dedication and glows through continuous consistency. Overall, the program proved to be an exceptionally motivating and impactful session for all participants.
