Project Number: 4

Date: August 23, 2026

Location: Creative Academy, Kirtipur
Rukum West

Collaboration: Project Aasha

Specified Committee: Community Service

Area of Focus: Basic Education and Literacy

Introduction:

"Project Aasha" is a community service project initiated to support children, women, and students in rural areas of Nepal. This particular project focuses on fostering generosity and compassion among younger generations and establishing educational equity in society. The primary objective of this initiative was to provide educational resources, sanitary products, and possible assistance to underprivileged students of Rukum.

Summary:

Our club's contribution centered around a school-wide donation drive, where students were requested to contribute and donate books, notebooks, stationery, clothes, and other useful items for underprivileged children in Rukum. Rather than treating this initiative as a compulsion, every student was encouraged and advised to donate from their hearts and give only what they genuinely wish to share. They were also requested not to pressure their guardians into donating anything they were uncomfortable with. This helped ensure that every donation was made with voluntary kindness and goodwill. Our team members carefully packed each box with best wishes and hope that our help would reach the students of Rukum safely, carrying not only donations, but also our love and adoration.
