.On 29th August, The Interact Club of Annapurna Higher Secondary School collaborated with Leo Club Of Kathmandu Dharahara Height for the “Gai Jatra Cleaning Campaigni” event. This event was to clean Ason area after the events of gai jatra.

Project Summary:

.On 29th August, The Interact Club of Annapurna H.S.S. took a noble initiative on Gai Jatra by organizing a street clean-up campaign in the historic Ason area. After the day's grand festivities and massive crowds, the streets were left littered and untidy. With the motive of restoring cleanliness and hygiene, club members along with volunteers rolled up their sleeves and swept the streets, collected waste, and ensured the area was spotless once again. The event was a powerful reminder that celebrating traditions also comes with the responsibility of keeping our community clean. The team's dedication earned appreciation from local shopkeepers and residents alike.
