Introduction:

On 28th July 2026, the Interact Club of Narayani Public School, in collaboration with Dev Hospital Pvt. Ltd., successfully organized a World Hepatitis Day Awareness Program at Narayani Public Hall. The program aimed to educate students about hepatitis, its prevention and the importance of maintaining good health. The event saw the participation of more than 30 students along with distinguished guests.

About "World Hepatitis Day Awareness Program"

Summary:

The program officially commenced with an inauguration ceremony chaired by Itr. Anjis KC, President of the Interact Club of Narayani Public School. Vice President Itr. Arjabi Neupane then delivered the welcome speech, warmly greeting the Chief Guest, distinguished guests, teachers, students, and all attendees while emphasizing the importance of public health awareness programs. The awareness session was conducted by Dr. Anup Lamichhane, who provided an informative presentation on hepatitis, covering its types, causes, symptoms, transmission, prevention, complications, and treatment. The session was interactive, with students actively asking questions and clearing their doubts. At the end of the program, the Chief Guest appreciated the club's initiative in organizing such a meaningful and timely awareness program.

Feedback:

The program received highly positive feedback from the participants. Students expressed that the session enhanced their understanding of hepatitis and its prevention.. The encouraging feedback from the Chief Guest further motivated the students to become responsible health advocates in their communities. Overall, the event was well-managed and appreciated by all those in attendance.

Conclusion

The World Hepatitis Day Awareness Program was successfully conducted and fulfilled its objective of raising awareness about hepatitis among students. With the active participation of more than 30 students, the valuable knowledge shared by Dr. Anup Lamichhane ,the program proved to be both meaningful and educational. The event concluded on a positive note, leaving participants with increased awareness and encouraging them to adopt healthy practices while spreading knowledge within their communities.
