- Interact club of Suryodaya
- Interact club of Matribhumi Baluwatar
- Interact club of Manaslu World School
- Interact club of Rupy's International Kathmandu Mid-Town

About 'Friendship Fiesta 4.0'

Introduction:

The Friendship Fiesta 4.0 took place with 11 Interact Clubs from Zone 6 of Interact District 3292 Nepal & Bhutan taking part, the Interact Club of Kathmandu being the host. The purpose of the event was to get members from the different clubs together in a friendly and welcoming atmosphere. By means of a variety of interactions and activities, the participants were able to meet new people, share their ideas and form links that went beyond their own clubs. The event also offered a chance for newer and emerging clubs to interact with other clubs and get to know the wider Interact community. Since the event coincided with the August theme of Friendship and with Rotary's Membership and New Club Development Month, it encouraged the members to build up stronger relationships and to create a greater sense of belonging in the district. In summary, Friendship Fiesta 4.0 was a worthwhile meeting which helped to promote friendship, collaboration and stronger ties among the clubs involved.

Project Summary:

Throughout the event, participants were given different

Interact Club of Valley Public

opportunities to interact, connect with new people making the gathering both engaging and focused on building stronger friendships and teamwork.

- The gathering began with an opening session conducted under the leadership of Itr. Bimala Dulal (Parul). Representatives from the different participating clubs introduced their upcoming plans and shared updates about their activities. The session also focused on building connections among the interactors, with participants encouraged to meet and become friends with at least five people from clubs other than their own.
- To continue this spirit of friendship, cards prepared by Itr. Rufash K.C. were distributed among the participating clubs. The clubs also exchanged their official letterheads, representing their willingness to maintain strong relationships and cooperation beyond the event.
- The participants were then mixed into teams made up of members from different clubs. Through a variety of icebreaking activities and team games, they had the chance to introduce themselves, communicate with unfamiliar teammates, and discover each other's personalities. The friendly competition made the activities both enjoyable and engaging while encouraging everyone to participate actively.
- One of the main attractions of the gathering was the treasure hunt. Teams worked together to interpret clues, complete challenges, and reach their final objective. The activity required cooperation and communication, creating an exciting challenge for everyone involved. Members of the winning team received bracelets sponsored by BND Cosmetics.

- The gathering ended on a lively note with individual performances by participants, followed by a dance session where everyone could enjoy themselves and interact freely. The closing moments allowed participants to strengthen the friendships they had made throughout the event. Food and Nimbu Paani were also served, bringing the social gathering to a warm and enjoyable conclusion.

Overall, the gathering was a fun and memorable experience that brought people from different clubs together, giving everyone a chance to make new friends, work as a team, enjoy the activities, and create some great memories together.
