Guests:

1. Itr. Aaryman Pandit -- ZIR, Zone-6, District 3292

2. Itr. Irfan Pathan – PDIR, District 3282, Bangladesh

Introduction

The Letterhead, Fellowship & Cultural Exchange Program was held on 3rd September 2026 between the Interact Club of Goldengate College, Nepal and the Interact Club of Comilla Sunrise, Bangladesh. The program was organized with the aim of strengthening friendship, understanding, and cultural connections between two clubs from different countries. Through this exchange, we shared our club letters, ideas, values, and the beauty of our respective cultures.

The International Fellowship and Cultural Exchange represents a powerful testament to the global spirit of Interact. Despite being separated by thousands of kilometers, young leaders from two distinct nations come together under a shared commitment to leadership, service, and international understanding.

At its heart, Interact is built on the foundation of international service and goodwill. Although the clubs are situated in different parts of the continent, they share a common purpose of developing young leaders, encouraging fellowship, and creating a positive impact in their communities. The exchange provided an opportunity for both clubs to strengthen their relationship and explore possibilities for future collaboration. Beyond the formal exchange, the fellowship allowed us to connect, share ideas and create memories together. This event transcends geographical, political, and physical barriers, proving that genuine connection requires only open minds and shared values. By bringing members together in a shared virtual space, both clubs embody Rotary's vision of building peace and understanding across borders. For individual Interactors, the opportunity to connect with peers across borders is transformative. Members form lasting personal bonds with like-minded youth who share a passion for community service.

BLUEPRINTS

Project Summary

Through the official letterhead and cultural exchange, both clubs expressed their willingness to connect, share experiences, learn from one another, and work together on meaningful initiatives in the future. Both clubs exchanged their official letterheads as a symbol of trust, friendship, and long-term collaboration. During the program, members introduced their clubs, shared their projects, and talked about their cultures, festivals, traditions, languages, and food. This fellowship event is more than just a single gathering—it is a stepping stone for future youth collaboration. It serves as a reminder that youth empowerment is not limited by locality. When young leaders from Bangladesh and Nepal come together, they build a bridge of solidarity that strengthens both clubs, enriches every participant, and proves that distance is no barrier to fellowship.

Attendees Feedback:

Itr. Shreedesh Tiwari's feedback:

The meeting was truly wonderful, meaningful, and well organized. It was a great opportunity to connect with Interactors from different countries, exchange ideas, and learn about diverse cultures and perspectives. I sincerely appreciate the efforts of everyone involved in organizing this meeting and making it such a valuable experience. I hope to join more meetings like this in the future.

Itr. Kausub Dahal's feedback:

It's was amazing to get in touch and communication with interactors from thousand miles away and I learned new things about culture, tradition, festivals and food of Bangladesh.

Had a good time

Itr. Ashutosh Chaudhary's feedback:

The letterhead exchange provided a wonderful opportunity to connect, share ideas, and build a lasting friendship between our clubs.
